What Can YOU do to HELP?!?!

West Virginia currently allows babies to be aborted all nine months of pregnancy. We are one of only nine states that allows this practice

HB 4588 asserts that there is a substantial body of evidence that an unborn child feels pain at 20 weeks and that the state has an obligation to protect an unborn child from pain and suffering and, as such, should prevent abortions unless the life of the mother is in danger.

Ten states and the U.S. House of Representatives have passed

the Pain-Capable Unborn Child Protection Act.

Please take the time this week to take a stand for life, by calling or emailing your State Senators and asking them to support HB 4588 the Pain-Capable Unborn Child Protection Act.

**The Senate will be voting
on HB 4588
this Tuesday afternoon!**
